Website: sigmalux.pro

Specialty: Advanced, energy-efficient LED lighting for industrial and commercial applications.

Product Categories:

- High bays and low bays
- Parking garage fixtures
- Area and roadway lighting
- Light Poles

Key Applications:

- Industrial facilities
- Warehouses and logistics centers
- Parking structures
- Sports arenas and large outdoor spaces

Why Sigmalux?

SIGMALUX combines energy efficiency with state-of-the-art design, helping reduce operational costs while delivering robust lighting solutions for demanding spaces.

Website: synapsewireless.com

Specialty: Intelligent lighting controls and IoT solutions.

Product Categories:

- Wireless lighting control systems
- Power monitoring tools

Outdoor Applications:

- Parking Lots • Parking Garages
- Pathways • Sports Facilities & Stadiums
- College & Enterprise Campus

- Cloud-based IoT platforms for lighting management
- Occupancy sensors and daylight harvesting solutions

Indoor Applications:

- Light Industrial and warehouses
- Production Lines • Indoor Practice Fields
- Gymnasiums

Why Synapse Wireless?

With over 2 million devices in the field, Synapse Wireless enables intelligent, real-time control and monitoring of lighting systems, offering scalable IoT solutions that drive energy savings and operational efficiency.

Website: thesmartlightingcompany.com

Specialty: Customizable, innovative smart lighting solutions.

Product Categories:

- Motorized pop-up lighting
- Customizable outdoor and area lighting solutions
- Modular handrail systems

Why The Smart Lighting Company?

Their static and RGBW lighting and app-based solutions are perfect for spaces needing flexible, innovative, and user-friendly lighting systems.

Key Applications:

- Custom lighting for parks, plazas, and public spaces
- Smart lighting integration for municipalities and events
- Outdoor spaces requiring flexible or concealed lighting solutions

Website: western.it/en

Specialty: Advanced lighting solutions for tunnels, transit, and public infrastructure.

Product Categories:

- High-performance SOLAR roadway lighting
- Emergency lighting systems
- Inverters on-grid/off-grid & Hybrid

Why Western Co.?

Western Co. delivers cutting-edge SOLAR solutions for complex infrastructure environments, combining safety, efficiency, and durability for transit and public spaces.

Key Applications:

- Transportation infrastructure (highways, and railways)
- Safety and emergency lighting for public spaces
- Transit-oriented projects requiring advanced lighting solutions
